PRESIDENT SCIENCE COLLEGE

Science is the inevitable part of our life. In order to inculcate scientific concepts to our students President Science College registered for the visit to Science Exhibition held at Gujarat University for 22-28 February, 2022. Students visited the exhibition in groups on 23, February, 2022, along with several individual student visitors as well during the exhibition dates. There were total 13 exhibition halls explaining various scientific theories from different subjects. Several innovative projects and models have been visited. A virtual lecture series conducted as one of the learning experiences at exhibition has also been beneficial to our students. Here are the glimpses of student visit to science exhibition at Gujarat University. Dr. Darshna Patel (Assistant Professor, Department of Microbiology) and Dr. Stuti Patel (Assistant Professor, Department of Biotechnology) were coordinators from President Science College for this event.
