President Science College at National Conference on Microbial Maestros, St. Xavier's College Ahmedabad

Students of B.Sc. (Hons.) Biotechnology and Microbiology from President Science College participated in the One Day National Conference on “*Microbial Maestros for Sustainable Development*” organized by the Department of Microbiology, St. Xavier's College (Autonomous), Ahmedabad on 10th February 2026. The conference focused on the role of microorganisms in sustainable development, environmental management, healthcare innovations, and emerging biotechnological applications. It provided a valuable platform for students and researchers to exchange ideas and explore recent advancements in microbiology and biotechnology.

As part of the event, students presented their posters on different topics in the UG Poster Competition. **Ms. Ritu Sonara (Semester 6, Biotechnology)** and **Mr. Darshit Nagar (Semester 6, Microbiology)** secured the **Third Prize**, bringing recognition to the institution. Competing with students from various institutions, their work was highly appreciated by the panel of judges.

Such academic engagements help students enhance their scientific outlook, presentation skills, and research aptitude. The participation reflects the institution's continued commitment to encouraging research-oriented learning and academic excellence.
